

Neighbourhood Plan

Your neighbourhood; your future

KEY THEME 2 - VILLAGE FACILITIES

Your Views - What do you think?

POSSIBLE ISSUES TO CONSIDER

1. To consider the adequacy of existing **Recreational, Sporting and Community** facilities within our village and immediate area and to identify sites where new or better facilities might best be located.
2. To consider the potential provision of **new or upgraded community facilities** in our village.
3. To identify the features which contribute to the rich **quality of community life** of Wootton as well as other key events and activities that **attract visitors** to our community.
4. To consider the scope to exploit **Tourism** given the historic nature of the village, the long association with brick making and the benefits of new **hotel provision** in the village.
5. To be a provider of **educational excellence** for young people in the village and the immediate locality.

Do you consider the village has the right balance of facilities for its size? What facilities may be required in the future leading up to 2035? Any facilities missing or could be improved?

**Is superfast broadband required in the village?
What features would add to the quality of community life?
What facilities would attract visitors to our community?**
