(He emailed the Clerk later during the meeting to confirm an offender was being searched for, without success). Cllr Lloyd asked if he received many calls relating to the recreation ground. PCSO Hales confirmed he received a few, not many, mostly relating to noise, drug misuse and nuisance vehicles. PCSO Hales was thanked for attending and left the meeting. Cllr Price asked if the length of each session and total number of cars seen could be included in future reports. He also added the police had historically refused to monitor Cranfield Road on health and safety issues. Bill Brady (in attendance with a view to being co-opted to the Parish Council) gave further information, confirming that those caught speeding would receive letters. Cllr Bygraves queried the legality of the speed limit on Fields Road, and Bill B confirmed repeater signs should have been included between the roundabout and existing 30MPH sign. That site had been chosen due to the existing of the crossing. Bill B added they had observed cars speeding up. He added letters were sent to anyone caught speeding. If sent a letter for a second time, the police would visit and a third time meant a sever warning from police. If they were then caught with official speed cameras, this would be mentioned in evidence at a court hearing. Cllr Hall stated it was difficult to count total car numbers as all 3 people had a role to play in recording the relevant information needed. It was noted however, that 3 more residents had applied to help with the scheme, and that it might be possible to record that information with the extra assistance.

FC14/85 – Appendix 1

David Bainbridge (Bidwells) began by introducing himself and provided 4 paper plans (as attached). The other representatives then introduced themselves:

- Tom Francis – Woods Hardwick;
- John Freeman – Woods Hardwick;
- Karl Osborne – Woods Hardwick;
- Dan Wisson – Bellway Homes;
- Martyn Grimes – Bovis Homes;
- Jim Caffrey – Principal Planner, Bedford Borough Council.

The plans covered some 36 ha/89 acres in total – the land being currently owned by Bedford Borough Council. Contracts had been exchanged (subject to planning permission) and it was confirmed planning would be mostly residential dwellings, in the region of 600. The intention was to submit a full application to include that, plus a 55 bed extra care facility, to be located south of Fields Road and east of the Healthy Living Centre. 0.63ha was proposed for allotments and a car park, plus MUGA (Multi Use Games Area). There were also plans for one full sized synthetic sports pitch (to be available 365 days a year for free play) and associated infrastructure. Jim added at this point that this was still subject to further consultation and other options might be available. David confirmed the application was expected to be submitted by September 2014, and that the intention was to have continuous liaison with the Parish Council (including a public exhibition either late July/early August).

The plans were then looked at in more detail, and initial discussions centred on a proposal to close Cranfield Road to all through traffic. A link road would run through the new development, and out onto Cranfield Road near Berry Farm, and it was noted its structure would prevent HGV use. Cllr Lloyd made clear his objections to this proposal, stating it would add severe congestion to the already busy Fields Road. A number of footpaths would ensure connection to the existing village, with housing parcelled between. The aim was to have a village green in the middle.

Jim then detailed drainage, stating a number of attenuation basins would be within the site. He added current ditches within the site had added to constraints on the layout.

A cycle way would also feature – away from the link road and nearer the sports pitch, but still with additional links to Cranfield Road and complying with a safe route to school policy.

It was noted there was already a pedestrian crossing on Fields Road to help facilitate this.

Cllr Lloyd queried an area on the cycle route near the sports pitch and Jim replied it was a potential access point to further Borough Council land.

Cllr Wheeler raised concerns over the proposed allotments, stating the land was effectively marsh land. Jim explained they were a policy requirement, but if there were no demand the land could be put to an alternative use. Cllr Dillistone asked if a suitability survey would be carried out and John stated a full site investigation (to include identification of soil type) would take place. With the extent of the proposed works, it would be possible for soil to be relocated within the site.

Cllr Quirk referred to a historic Geological Survey which had indicated a shift in the Oxford Clay sub-structure. David confirmed the British Geological Survey records would be consulted. Cllr Quirk asked if any substantial findings would result in plans being abandoned but David could not recall that situation having ever taken place. Cllr Quirk then queried restraints with regard to the Stewartby landfill site, and again David confirmed the Health and Safety Executive and Environment Agency would be consulted.

The Cranfield Road proposal was again discussed, and Cllr Lloyd again strongly voiced his concerns that it would serve no benefit to the village. Jim stated it had been favoured by villagers (a small majority) in the past but was challenged by a number of Councillors who argued the village had previously spoken out against its closure. Cllr Price expressed his concerns in having a main road running through the new development.

David confirmed the proposal to close Cranfield Road was mooted by the Borough Council and not the developers, and noted the strong feedback received in this respect. Cllr Dillistone asked how the Parish Council could best challenge this decision and Jim reiterated it was merely a proposal at this stage, and that a formal consultation had not yet taken place. He confirmed the Borough Council would review the proposal and advise the Parish Council prior to any potential application.

He also confirmed the Borough's intention to still site a double mini roundabout at the Church Road/Fields Road/Bedford Road/Cranfield Road junction as part of a safe route to school policy. That would still occur even if Cranfield Road were to close.

The Clerk was asked to formally record that no parish councillor spoke in favour of the proposed closure.

John then provided further information with regard to drainage requirements for the site, which lies West-East and would include swales and ponds. Existing ditches would also be maintained and form part of the drainage system. Cllr Price queried safety and Jim confirmed there were a good number of both swales and ponds elsewhere in the Borough, with no reports of Health & Safety issues. For the most part, they would be dry, and rainfall would prevent them becoming stagnant.

Cllr Lloyd asked if there were plans to include changing rooms near the sports facilities. There were none at present, but consideration could be given in the future.

Cllr Lloyd then asked about pre-school facilities as he understood this was to be provided within the site. Jim confirmed it was not a matter for consideration at this stage, but that an offer for such facilities could come forward within the employment site. However, no guarantee could be given that monies would be available for such a build. The Borough Council could provide the site, and the developers make a financial contribution but any deficit would require investigation. It was noted the developers had to contribute during the Phase 2 build of the new school north of Fields Road, and that it made sense to build at the same time. David agreed, but added phased payments, planning formulas and CIL (Community Infrastructure Levy) conditions made it difficult to achieve.

In Cllr Wallace's absence, Cllr Lloyd put forward a wish that the Parish Council be considered as manager of green space, but it was noted the Parish Council had yet to have formal discussions on this matter.

Cllr Dillistone was pleased to see the extra care facilities being proposed, along with potential employment opportunities for local residents.

Moving forward it was agreed to hold extra-ordinary meetings to focus purely on this item. Jim suggested the Parish Council appoint a small number of representatives to attend regular meetings ongoing at the Borough Council – held every other Thursday from 2pm-5pm. The Clerk agreed to email all members, and advise him accordingly.

All representatives were thanked for attending, and then left the meeting.

Appendix 4

The two issues which I raised in my last report are featured on this agenda – the provision of current account banking and bottle bank revenue. We move into the 21st century with regard to banking (subject to resolution at this meeting I hope!) and not before time.

The Clerk recently sent me a circulation received from the SLCC regarding the new Standards Scheme (to replace the Quality status benchmark) which contains additional guidance. It is still very much early days, but the documentation details requirements with regard to recognising council performance, demonstrating credibility and a development framework. Further information will no doubt follow, but you may find this of use in the meantime.

Thank you.
